To Whom It May Concern:

I have a condition called paruresis. I have had it for over 20 years. I am now 35. I cannot pee in a situation with anyone near by, or if I know someone is waiting for me to do so. This is a serious condition that few people know about. I hide it very well. I would love nothing more than to be able to pee anytime like most people can, but I cannot. Even if I try for hours, I cannot. On behalf of the estimated 17 million sufferers of this condition, please take this into consideration in your drug testing rule making.

Thank you.

An Avoidant Paruresis in Southern California
